This data is as of 12/20/2012 and could be subject to change at any time.

If your provider is not here, type "email daily limits" and your provider name into google search

Options to do more:

Use a paid email provider like smtp2go & others

Purchase a web hosting account through CCS or some other provider that has higher limits

Set up your own email server (good luck)

Negotiate with your provider (this may cost \$\$\$)

Secure Email Settings for Common Providers: (must check email requires a secure connection (SSL) in CCS)

| <u>Provider</u> | <u>Server Name</u> | <u>SMTP Port #</u> |
|-----------------|-------------------------------|--------------------|
| AOL | smtp.aol.com | 587 |
| Gmail | smtp.gmail.com | 465 |
| Hotmail | smtp.live.com | 587 |
| MS Online | smtp.mail.microsoftonline.com | 587 |
| Verizon | outgoing.verizon.net | 465 |
| Yahoo | smtp.mail.yahoo.com | 465 |
